

CURRENT LIST of MEDICAL LITERATURE

Vol. 15

October 22, 1948

No. 14

Subject Groups According To Journals

- 1. Allergy
- * 2. Anatomy; Histology
- * 3. Anesthesia
- 4. Anthropology
- 5. Aviation Medicine
- * 6. Bacteriology; Parasitology
- * 7. Biology
- * 8. Cancer
- * 9. Cardiovascular System
- * 10. Chemistry; Physics
- * 11. Dentistry; Stomatology
- * 12. Dermatology
- * 13. Diagnosis; Clinical Methods
- 14. Digestive System
- * 15. Endocrinology
- 16. Forensic Medicine; Toxicology
- * 17. General
- 18. Genetics; Eugenics
- 19. Geriatrics
- * 20. Gynecology; Obstetrics
- 21. Hematology
- * 22. History; Bibliography; Biography
- * 23. Hospitals
- * 24. Immunology; Serology
- * 25. Industrial Medicine *
- 26. Infectious Diseases
- * 27. Medicine.
- 28. Military and Naval Medicine
- * 29. Miscellaneous
- * 30. Musculoskeletal System
- * 31. Neurology; Psychiatry
- * 32. Nursing
- * 33. Nutrition
- * 34. Ophthalmology
- * 35. Otorhinolaryngology; Phoniatry
- * 36. Pathology
- * 37. Pediatrics; Child Welfare
- * 38. Pharmacology
- * 39. Physiology
- 40. Psychology
- * 41. Public Health; Epidemiology
- * 42. Radiology
- * 43. Respiratory System
- * 44. Surgery, General
- * 45. Therapeutics
- * 46. Tropical Medicine
- * 47. Tuberculosis
- * 48. Urology
- * 49. Venereal Diseases (see also 12. Dermatology)
- * 50. Veterinary Medicine

THE ARMY MEDICAL LIBRARY

Washington, D. C.

THE ARMY MEDICAL LIBRARY

PHOTODUPLICATION SERVICE

The purpose of photoduplication is to extend the services of the Library to those at a distance who cannot come in person to consult its collections. In the case of the Army Medical Library it provides an economical and efficient means of contributing more largely to the advancement of medicine and the public welfare.

In order that photoduplication may render the greatest possible aid to those engaged in medical research, the following policies in regard to its conduct will be observed:

1. The Library will lend without charge single microfilm copies of original articles published in medical periodicals not available locally. Such loan requests should be routed through libraries, governmental agencies, or research institutions. The microfilm, being a part of the duplicate collection of the Library may be used for ninety days and will be returned to the Library at the end of the loan period.
2. Requests for microfilms and photoprints for official business in the Department of Defense will be filled free of charge.
3. Microfilms will also be sold to those desiring to retain them, at a rate of 50 cents for each 50 pages or fraction thereof from a single article.
4. For the benefit of those not having the facilities to read microfilms, photoprint copies of separate articles from periodicals will be supplied at a charge of 50 cents for each 10 consecutive pages or fraction thereof from a single article.
5. Except when the order is accompanied by the written permission of the copyright owner, The Army Medical Library will not reproduce books protected by copyright, or entire periodical issues.

INSTRUCTIONS

All requests, including those for free loans, must be submitted on Army Medical Library official order blanks (AML Form 48). A supply will be furnished on request.

All purchase orders must be accompanied by payment in cash or by check or money order made payable to the treasurer of the United States, or by Army Medical Library Coupons, which may be ordered in any quantity from the Library at 50 cents each.

Federal agencies will be billed periodically by Standard Form 1080 (Voucher).

Refunds for material the Library is unable to supply will be made by coupons unless cash refund is specifically requested.

The CURRENT LIST OF MEDICAL LITERATURE is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. Price: \$3.00 per year (\$3.75 foreign); 10 cents per single copy. All communications regarding subscriptions should be addressed to the Superintendent of Documents.

Published weekly by the ARMY MEDICAL LIBRARY, 7th Street & Independence Ave., S. W., Washington 25, D. C., as an intraservice publication of the Department of the Army. Lists all articles of medical interest contained in current journals received. Subject index provided monthly. Exchange invited.

CURRENT LIST OF MEDICAL LITERATURE
Vol. 15, No. 14 October 22, 1948

2. Anatomy; Histology

Am. J. Anat., 1948, 83: No. 2 (Sept.)

- STEBBINS, R. C. Nasal structure in lizards with reference to olfaction and conditioning of the inspired air. 183-221.
- ANGEL, J. L. Factors in temporomandibular joint form. 223-46.
- WILLIAMS, M. F. The vascular architecture of the rat uterus as influenced by estrogen and progestrone. 247-307, incl. 7 pl.
- WEBER, A. F., MORGAN, B. B., & McNUTT, S. N. A histological study of metrorrhagia in the virgin heifer. 309-27, incl. 3 pl.

Arch. Anat., Strasb., 1948, 31: No. 1-3

- WINCKLER, G. Les muscles profonds du dos chez l'homme; étude analytique de leur structure et de leur innervation. 1-58.
- MEYER, P. Contribution à la morphogenèse de l'arcade axillaire. 59-121.

3. Anesthesia

Anesthésie, Par., 1947, 6: No. 3 (June)

- ANDRÉ, M. J. La ranimation en chirurgie; traitement physiologique de la syncope; à l'exclusion de l'oxygène-carbothérapie. 129-65.
- DIEUDONNÉ, H. L'anesthésie épidurale sacro-coccigienne dans le pratique obstétricale. 166-82.
- ROCHETTE, M. Anesthésie du nerf maxillaire supérieur par la voie sus-zygomatico-malaire. 183-5.
- JACQUOT, G. Anesthésiques généraux et sulfamides. 186-8.
- BREHANT, J. Les anesthésies par réfrigération. 189-92.
- GAVAUDAN, P. La narcose par les narcotiques indifférents. 193-214.
- MAROGER, M. Intubation intratrachéale. 215-22.

Anesthesiology, 1948, 9: No. 5 (Sept.)

- GROSS, E. G., HOLLAND, H. [et al.] The role of epinephrine in analgesia. 459-71.
- RAGINSKY, B. B. Mental suggestion as an aid in anesthesia. 472-80.
- JACOBY, J. J., COON, J. M. [et al.] Effect of procaine on liver function; an experimental and clinical study. 481-9.
- DONNELLY, W. A., GROSSMAN, A. A., & GREM, F. M. Local sequelae of endotracheal anesthesia as observed by examination of 100 patients. 490-7.
- HALE, D. E. Controlled hypotension by arterial bleeding during operation and anesthesia. 498-505.

- HERINGMAN, E. C., ADRIANI, J., & YAGER, B. B. Prolonging the effects of curare with gelatin-dextrose mixtures; a preliminary study. 506-13.
- BARBOUR, C. M., & TOVELL, R. M. Experiences with procaine administered intravenously. 514-23.
- BURNAP, R. W., GAIN, E. A., & WATTS, E. H. Basal anesthesia in children using sodium pentothal by rectum. 524-31.
- CARMICHAEL, E. B. Mutual cross tolerance and tolerance studies with pentobarbital and delvinal sodium in rats. 532-6.
- HEBERT, C. L. Balanced anesthesia for thoracoplasty. 537-46.
- DE HELLEBRANTH, R. T. A modification of the Moore introducer for the administration of continuous spinal anesthetic agents. 549.
- STEPHEN, C. R., & SLATER, H. M. A nonresisting, nonbreathing valve. 550-2.
- CAINE, C. W. Endotracheal intubation. 553.
- FINER, G. H. Granuloma of larynx following intubation. 554.

Brit. J. Anaesth., 1948, 21: No. 2 (July)

- CHALLIS, J. H. T. The teaching of medical students: anaesthesia. 52-60.
- PLEASANCE, R. E. Intravenous anaesthesia, past and present. 60-77.
- PINKERTON, H. H. Anaesthesia for urological surgery. 78-94, 2 pl.
- HARBORD, R. P. Device for the determination of adequate tidal volume under anaesthesia. 94, pl.

6. Bacteriology; Parasitology

Bact. Rev., 1948, 12: No. 3 (Sept.)

- DUBOS, R. J. Cellular structures and functions concerned in parasitism. 173-94, incl. 2 pl.
- BERNHIMER, A. W. Properties of certain rapidly acting bacterial toxins as illustrated by streptolysins O and S. 195-202.
- STAVITSKY, A. B. Characteristics of pathogenic spirochetes and spirochetoses with special reference to the mechanisms of host resistance. 203-55.
- CONN, H. J. The most abundant groups of bacteria in soil. 257-73.

J. Bact., Balt., 1948, 56: No. 3 (Sept.)

- WAKSMAN, S. A., REILLY, H. C., & HARRIS, D. A. Streptomyces griseus (Krainsky) Waksman and Henrici. 259-69.
- HARRIS, J. O. The respiration of *Salmonella* in the presence of agglutinating serum. 271-5.
- COWLES, P. B., & KLOTZ, I. M. The effect of pH upon the bacteriostatic activity of certain nitrophenols. 277-82.
- WHIFFEN, A. J. The production, assay, and antibiotic activity of actidione, an antibiotic from *Streptomyces griseus*. 283-91.
- RAKE, G., BLANK, H. [et al.] The relationship of varicella and herpes zoster; electron microscope studies. 293-303.
- DULANEY, E. L. Observations of *Streptomyces griseus*; nitrogen sources for growth and streptomycin production. 305-13.
